*Professional results and performance – StarBrite gives your workspace flair and functionality.*

## WORK SURFACES

Why is treadplate found in professional garages and shops around the world? Because professionals know that treadplate provides the right combination of easy clean up, surface traction and protection. Now, StarBrite makes it easy for you to have professional shop looks without having to own a machine shop to apply it. Make your working area functional and professional looking when you add StarBrite to these areas:

- Shelf protection
- Corner protection
- Toolbox repair
- Door kick plates
- Floor covering
- Step covering
- Worktable covering

## AUTO

Want that rugged, go anywhere look? Take StarBrite for a spin. Because it's aluminum, it's light and the .040" thickness makes it easy to shape. But that doesn't mean it can't take a punch. Put StarBrite in the places that need it the most. It's made to stand up to the elements while making you look good. Get that rugged look you want and protect your vehicle on these next projects:

- Truck bed protection
- Automotive accents
- Trailer floor covering
- Trailer walls

*Aluminum treadplate protection means a longer lasting trailer floor*

*Put StarBrite to work where the rubber meets the road – on fenders and front ends to beautify and protect.*

*Sink splash guard – easy forming, trimming and four beautiful colors make StarBrite your first design choice.*

*With StarBrite easy-to-use treadplate, you're only limited by your imagination.*

## HOME

StarBrite is so easy to use that any do-it-yourselfer can create professional and beautiful results. With the popularity of industrial style interiors, treadplate makes the perfect accent. And now you don't have to give up beauty for protection. StarBrite comes in several durable color choices to match your designing needs. Try StarBrite on your next design for:

- Sink splash guard
- Stove splash guard
- Countertops
- Wainscoting
- Decorative accents
- Decorative trim
- Cabinet doors
